

LEITÃO & IRMÃO

JOALHEIROS

Ring Sizes

Print out this sheet and place a ring over one of the circles to find out what measurement you want.
The inside of the ring should match one of the circles.

Important: The printout should be set to actual size, so the "Fit to page" option, or any other resizing option in the print options must be disabled.

To verify that the printing scale is correct,
the above rulers should measure 20 millimeters or 2 inches.
